History of PQDT Global

- **1939:** Eugene Power starts collecting, archiving, and distributing dissertations through the University Microfilms International (UMI) company, which years later would become ProQuest
- **1951:** ProQuest's dissertations collection is designated a *database of record for graduate research* by the Association of Research Libraries (ARL)
- **1998:** PQDT is named the *official off-site dissertations repository* by the U.S. Library of Congress

QQ YQ YQIQ

NN YN|N ZZ||

WW|W ZZ YQ||

|W ZZ YZ YZ||

In the Viola concerto Xian Shi, we can find "The Sum Is Always Eight" in examples 16 and 17.

This block contains a snippet of musical notation. At the top, there are several lines of alphanumeric characters: 'QQ YQ YQIQ', 'NN YN|N ZZ||', 'WW|W ZZ YQ||', and '|W ZZ YZ YZ||'. Below this is a paragraph of text: 'In the Viola concerto Xian Shi, we can find "The Sum Is Always Eight" in examples 16 and 17.' Underneath the text is a musical score for a viola, showing a single staff with notes, rests, and some markings like '5', '3', '1', '3', '4', '6'. The notes are grouped with brackets and some are highlighted in red.

What is the core value of PQDT Global?

PQDT Global provides

access

to unique sources that are central
to scholarly research

Key elements of PQDT Global's core value: breadth *and* depth

Breadth

Access to 4.5 million dissertations (2.2 million full text) in dozens of different academic disciplines

Depth

Access to thousands of dissertations within a single discipline

Breadth

Family History...there is a Dissertation for that!

October is Family History Month and genealogy, as well as family histories, are topics that appear in the ProQuest Dissertations and Theses Global database.

[Read More >](#)

Food Studies (Online)...there is a Dissertation for That!

Food is an invaluable lens for examining developments in gender roles, class structures, government, health, technology, and more.

[Read More >](#)

Play Ball! Baseball is Back...there's a Dissertation for that!

A search of the word "baseball" in ProQuest Dissertations and Theses Global yields over 85,000 results, showing the popularity of America's National Sport.

[Read More >](#)

Inspiration and the Library...there is a Dissertation for That!

Inspirational dissertations on how librarians have impacted communities, including their work to break down gender and racial barriers in their profession.

[Read More >](#)

Depth

A study published in PLOS|One was based on analysis of 910 psychology dissertations selected at random from PQDT Global, which features almost a million dissertations in behavioral sciences.

This is one of several examples of ProQuest partnering with scholars to conduct original research.

RESEARCH ARTICLE

"Are you gonna publish that?" Peer-reviewed publication outcomes of doctoral dissertations in psychology

Spencer C. Evans^{1,2*}, Christina M. Amaro¹, Robyn Herbert^{1,3}, Jennifer B. Blossom^{1,4}, Michael C. Roberts¹

1 Clinical Child Psychology Program, University of Kansas, Lawrence, KS, United States of America, **2** Department of Psychology, Harvard University, Cambridge, MA, United States of America, **3** Department of Psychology, Washington State University, Pullman, WA, United States of America, **4** Department of Psychiatry & Behavioral Sciences, University of Washington School of Medicine, Seattle, WA, United States of America

* scevans@fas.harvard.edu

Abstract

If a doctoral dissertation represents an original investigation that makes a contribution to one's field, then dissertation research could, and arguably should, be disseminated into the scientific literature. However, the extent and nature of dissertation publication remains largely unknown within psychology. The present study investigated the peer-reviewed publication outcomes of psychology dissertation research in the United States. Additionally, we examined publication lag, scientific impact, and variations across subfields. To investigate these questions, we first drew a stratified random cohort sample of 910 psychology Ph.D. dissertations from ProQuest Dissertations & Theses. Next, we conducted comprehensive literature searches for peer-reviewed journal articles derived from these dissertations pub-

OPEN ACCESS

Received: October 16, 2017

Breadth and *depth* are also key elements of individual dissertations

Breadth

Dissertation topics are far more comprehensive than the relatively narrow topics addressed in journal articles.

Depth

Dissertations cover topics with far more specificity and rigor than is possible in review or summary articles.

Breadth and depth: case study #1

Communicative constitution of the social organization: Issues of identity, conversation, and text in the social media context

Dawson, Veronica Radeva. The University of Utah, ProQuest Dissertations Publishing, 2015. 10001015.

While social media policies seem to be popular discussion topics in nonacademic literature and a few participants mentioned the more general idea of “social media governance,” very few actually admitted to having a social media policy and nobody was able to produce a copy.

Breadth and depth: case study #2

Breadth and depth: case study #3

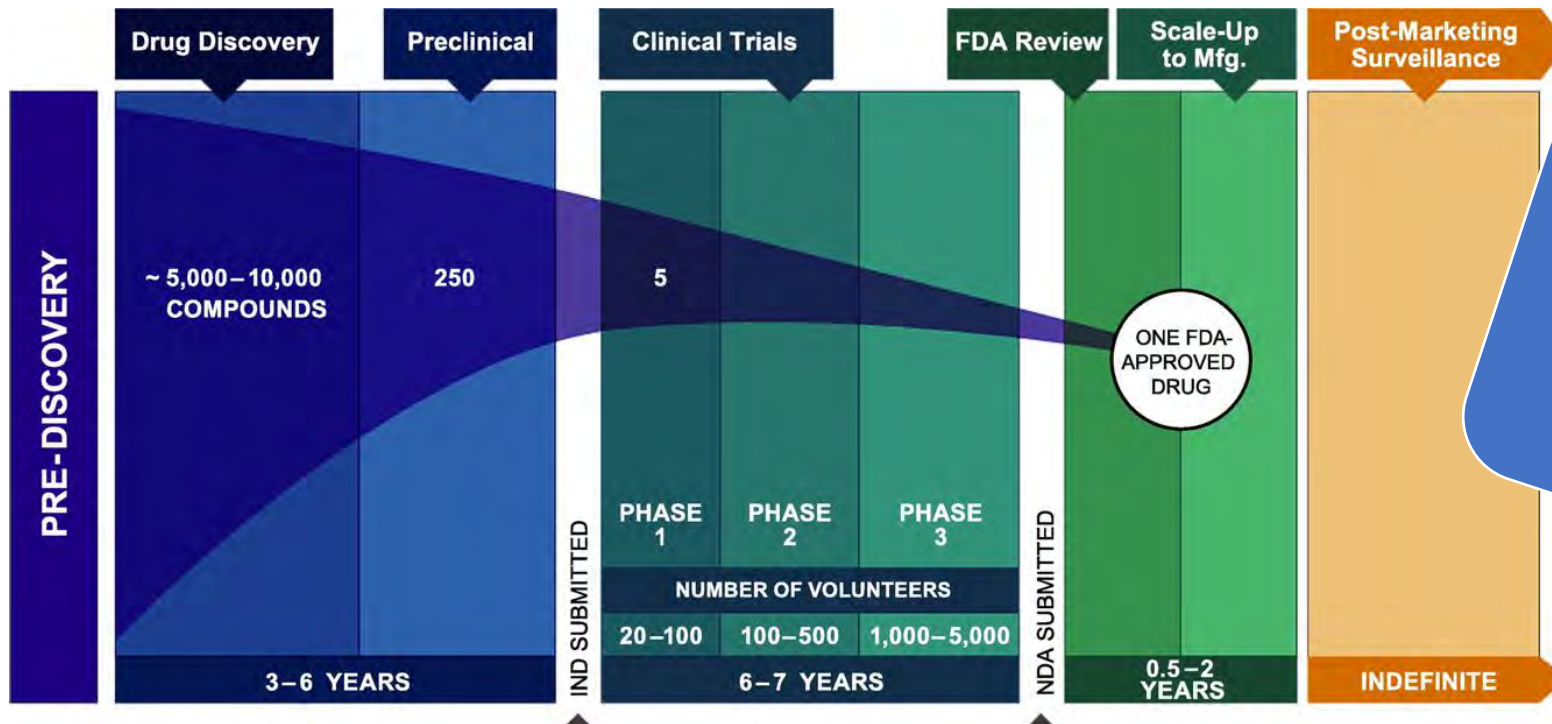

Industry relies on academia for basic research and evaluating clinical trials

Academia relies on industry for funding, equipment, and infrastructure

Successful collaborations

- Statins and reduction in deaths from cardiovascular disease in 1980s
- Anti-HIV medicine and reduction in deaths from AIDS in 1990s

When lives are at stake, dissertations can't be ignored.

Breadth and depth: case study #3

Unrealised potential: Japan's post-war pharmaceutical industry, 1945-2005

Umemura, Maki. London School of Economics and Political Science (United Kingdom), ProQuest Dissertations Publishing, 2008. U613404.

[Full text - PDF](#)

[Preview - PDF](#)

[Abstract/Details](#)

Abstract

Japan's existing pharmaceutical industry was devastated in the Second World War. But the industry recovered quickly, and in 1963, Japan had become the second largest producer of pharmaceuticals after the United States. Unlike its automobile or electronics industries, however, Japan's pharmaceutical industry did not become a global leader. Japan remains a net importer of pharmaceuticals and few Japanese drugs are found outside of Japan. The global pharmaceutical industry is led by firms from the United States, the United Kingdom and Switzerland, rather than those from Japan.

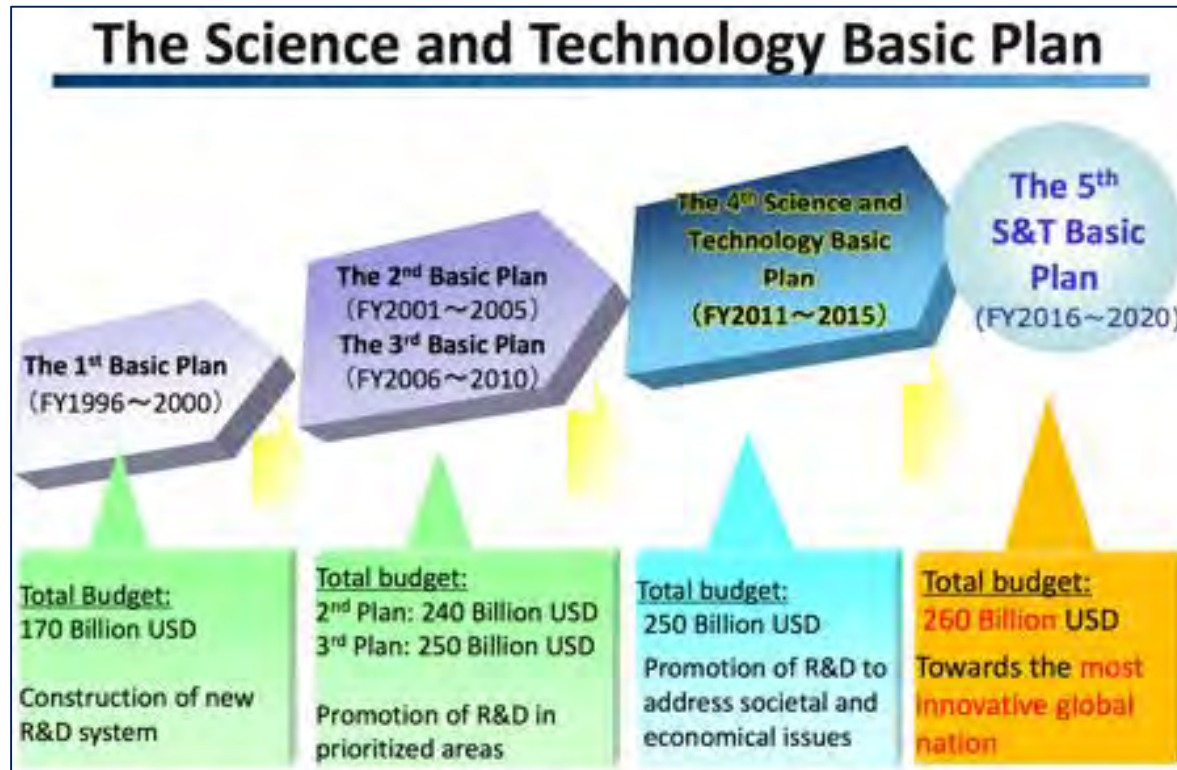

This thesis traces the development of the Japanese pharmaceutical industry after 1945, and offers several explanations for why it did not become a world-leading industry. It

Breadth and depth: case study #4

Creation of collaborative research centers at national universities and elimination of restrictions on private funding (1980s-90s)

Encouragement of universities to establish technology transfer offices, which involve academics consulting with and working for private companies (2000s)

1996 – 2016

In government policy studies, dissertations can't be ignored

Breadth and depth: case study #4

Partnering government laboratories with industry: A comparison of the United States and Japan from a government laboratory view

Choi, Young-Hoon. Syracuse University, ProQuest Dissertations Publishing, 1996. 9737840.

The effects of institutional attributes on policymaking in Japan: The case of MITI and the Ministry of Education in the area of academia -industry collaboration

Yoshihara, Mariko. Stanford University, ProQuest Dissertations Publishing, 2000. 9995309.

PQDT Global provides access to overviews, citations, and supplemental files

Summaries and systematic or literary reviews provide authoritative topic overviews

Comprehensive sets of citations and references speed up the research process and minimize chances of missing important credible sources

Large datasets, video recordings, and other supplemental files are valuable research materials rarely available in print

PQDT Global provides access to an increasing number of dissertations that used to be available only in print

- Every year, through the Digital Archiving and Access Program (DAAP), PQDT Global adds dissertations previously accessible only in print (part of ~200,000 added annually)
- Institutions who participate in DAAP preserve long-term access to their dissertations and protect against loss or damage from aging, theft, or natural disasters
- Securing digital access to dissertations allows for space reclamation and modernization of the library experience

ProQuest recently signed a deal with the University of Manchester to digitize thousands of dissertations

PQDT Global provides multiple ways of accessing dissertations and other important research materials

Researchers can also access dissertations alongside journal articles and other valuable sources

The screenshot displays the ProQuest search interface for the query "nanotechnology funding". The search results are filtered to show 50,758 results, with 18,905 from Ebook Central. The results list includes:

- Result 1:** "Impact of public funding on the development of nanotechnology: A comparison of Quebec, Canada and the US" by Tahmooresnejad, Leila. This is identified as a **dissertation**.
- Result 2:** "Researcher Views About Funding Sources and Conflicts of Interest in Nanotechnology" by Mccomas, Katherine A. This is identified as a **journal article**.
- Result 3:** "Research and Markets: Global Nanotechnology Market for Energy Storage - Analysis and Forecasts to 2015" by Anonymous. This is identified as a **newspaper article**.

The interface also features a sidebar with filters for "Narrow results" (Full text, Peer reviewed) and "Source type" (Scholarly Journals, Newspapers, Wire Feeds, Dissertations & Theses, Reports). A "Publication date" filter shows a bar chart for the years 1988-2019.

Reach

PQDT connects authors with the global research community

When authors submit their dissertation to ProQuest, they *reach* . . .

1. 4+ million researchers at more than 3,000 universities with subscriptions to PQDT Global

ProQuest Dissertations & Theses Global

Dissertation in PQDT

2. tens of millions of researchers who discover dissertations through ProQuest's partnership with Google Scholar

3. millions more researchers who use specialist indexes

PsycINFO®

A world-class resource for abstracts and citations of behavioral and social science research

Inspec

An invaluable resource - over 17 million abstracts and specialised indexing to quality research literature in physics and engineering.

PubMed

PubMed comprises more than 28 million citations for biomedical literature from MEDLINE, life science journals, and online books. Citations may include links to full-text content from PubMed Central and publisher web sites.

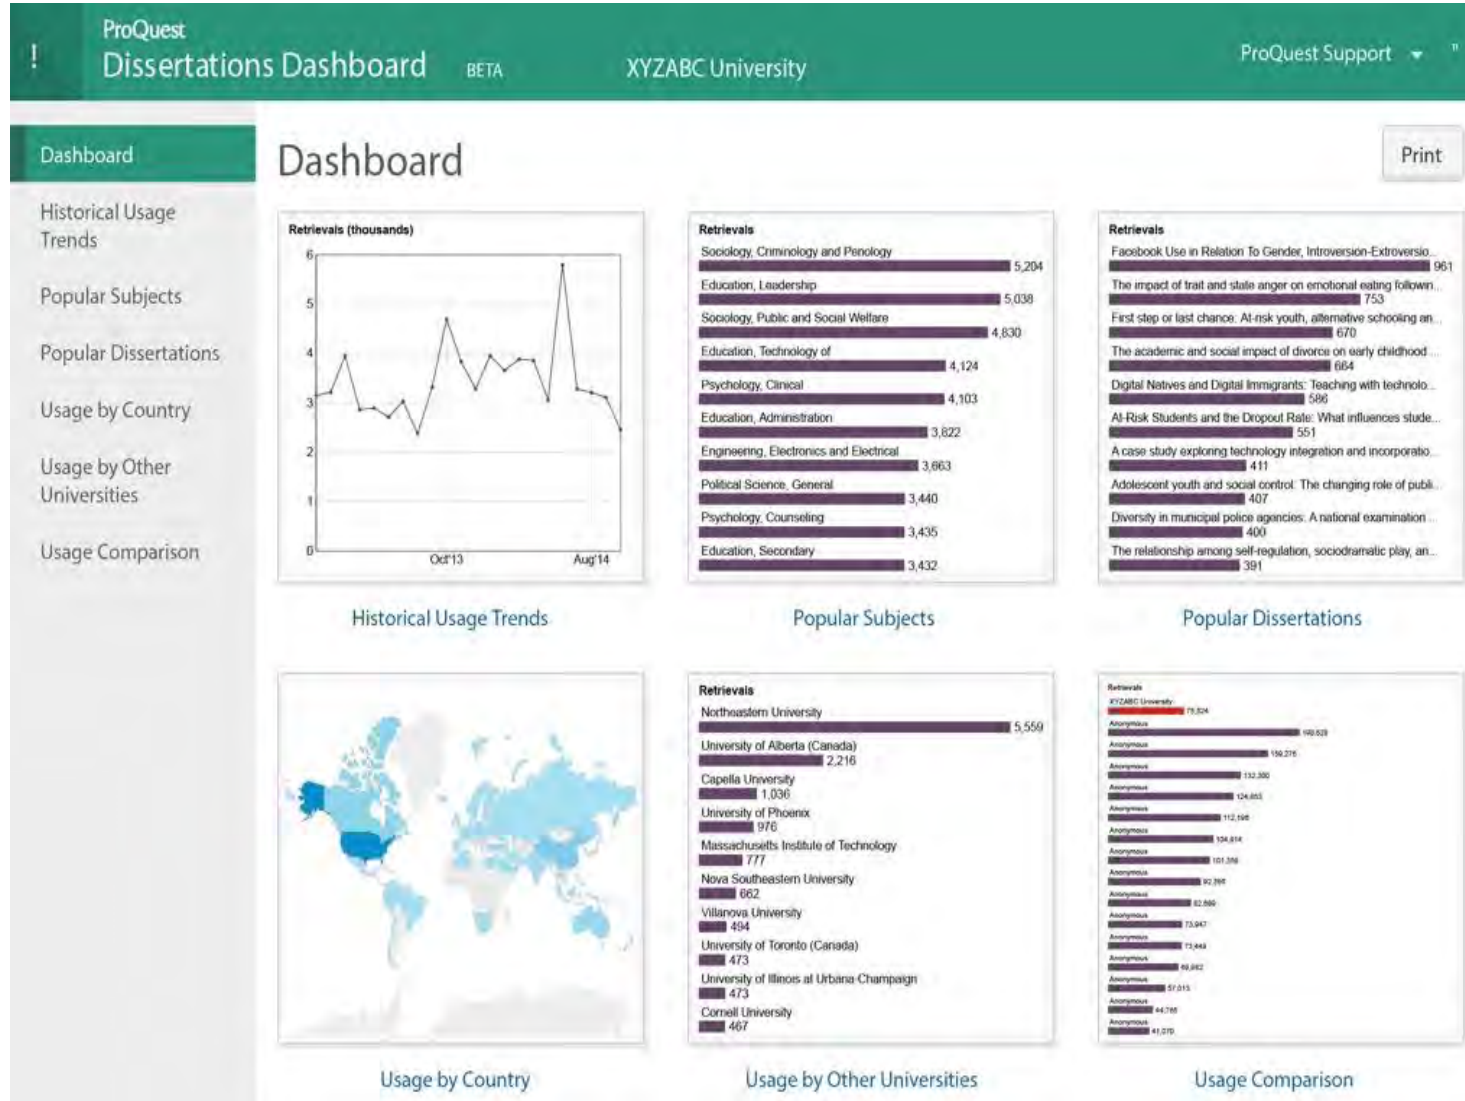

PQDT connects authors with the global research community

Dissertations submitted to PQDT Global may be designated as *open access*, which makes them available to researchers at institutions that don't subscribe to PQDT Global.

Dissertations in PQDT Global are retrieved four times more often than journal articles in other high-use academic databases.

Through PQDT, institutions increase their reach by promoting their students' research

- Participating institutions can access the Dissertations Dashboard, which tracks usage of dissertations written by their students
- The Dissertations Dashboard illustrates multiple dimensions of institutional reach

In this presentation, I have *not* . . .

- focused on specific features in PQDT
- described how ProQuest organizes and adds to dissertation metadata
- detailed the benefits to libraries of DAAP
- broken down dissertations in PQDT by discipline, country, language, etc.

Thank you for the continued support of PQDT
GLOBAL and the researchers who rely on it.
Much appreciated!
