

Early Musings on Terra Academia

A Brave New World

Council of Graduate Schools
Annual Conference
December 2011

“The Life of the graduate student is nasty, brutish, but
NOT short...”

not exactly Thomas Hobbes

Digital Technology will not only transform the intellectual activities of the research university, but will also change how it is organized, financed and governed.

National Research Council, 2002

Efforts to Outcomes

Solutions-focused Funding

The extended enterprise

External partnerships

Online Learning

For profit model

A whole new mind...

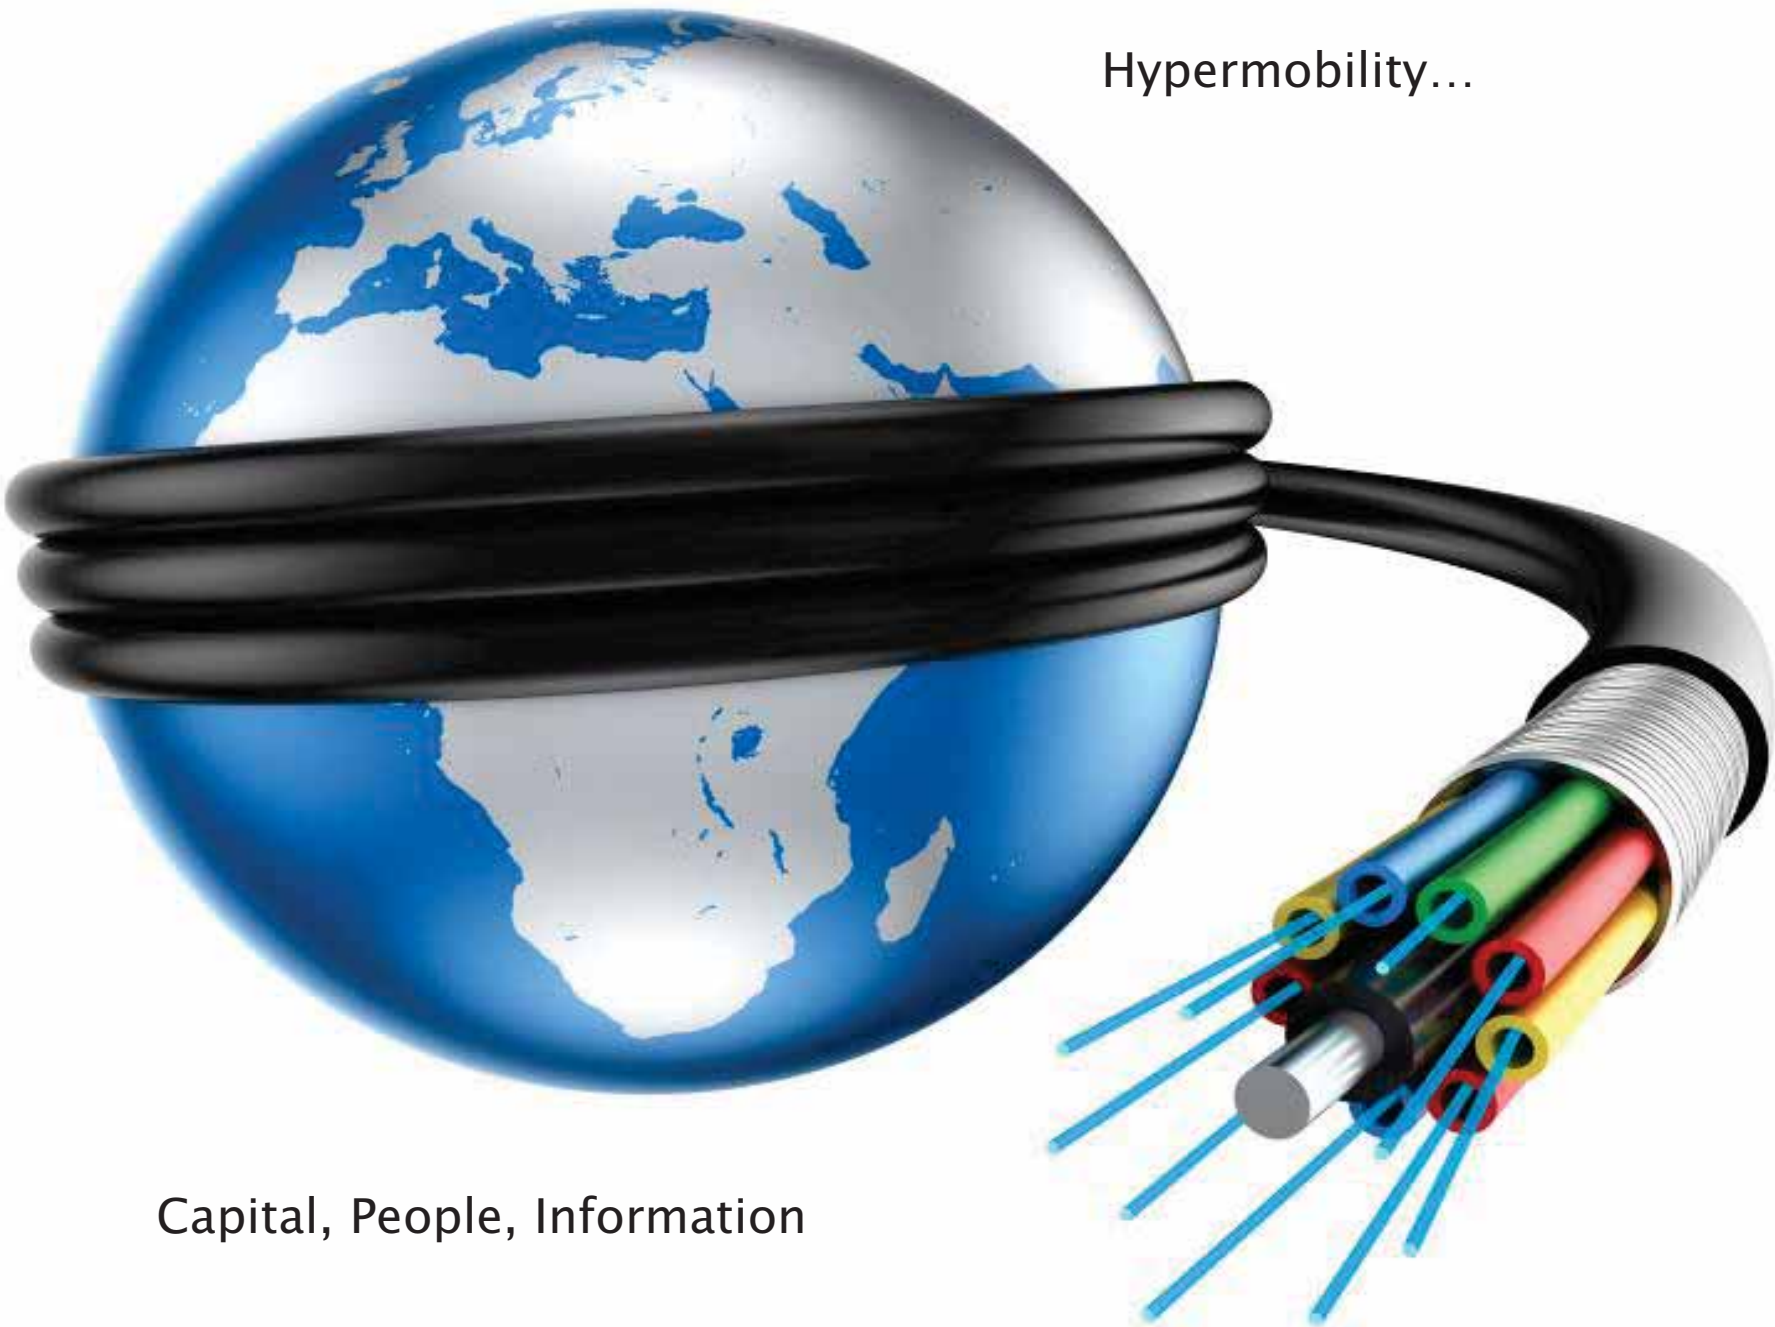

...leading to entirely different behavior

The world as one place...

Hypermobility...

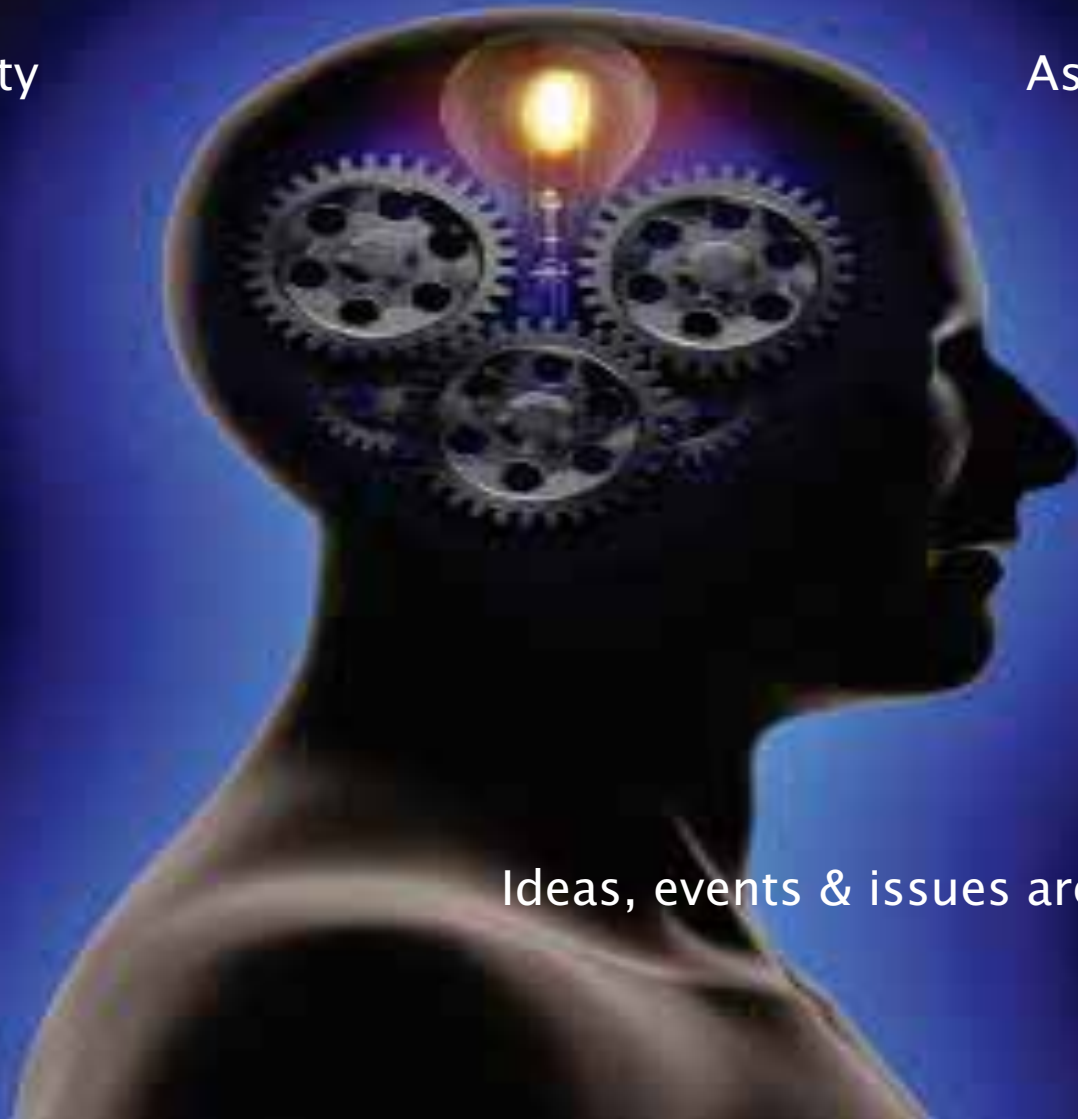

Capital, People, Information

Shared Experience

Simultaneity

Asynchronicity

Ideas, events & issues are experienced...

University sans Frontieres

Transcending mission
Borderless recruitment
Increasing complexity
Increasing Rigor
KnowledgeApplication
Denser networks

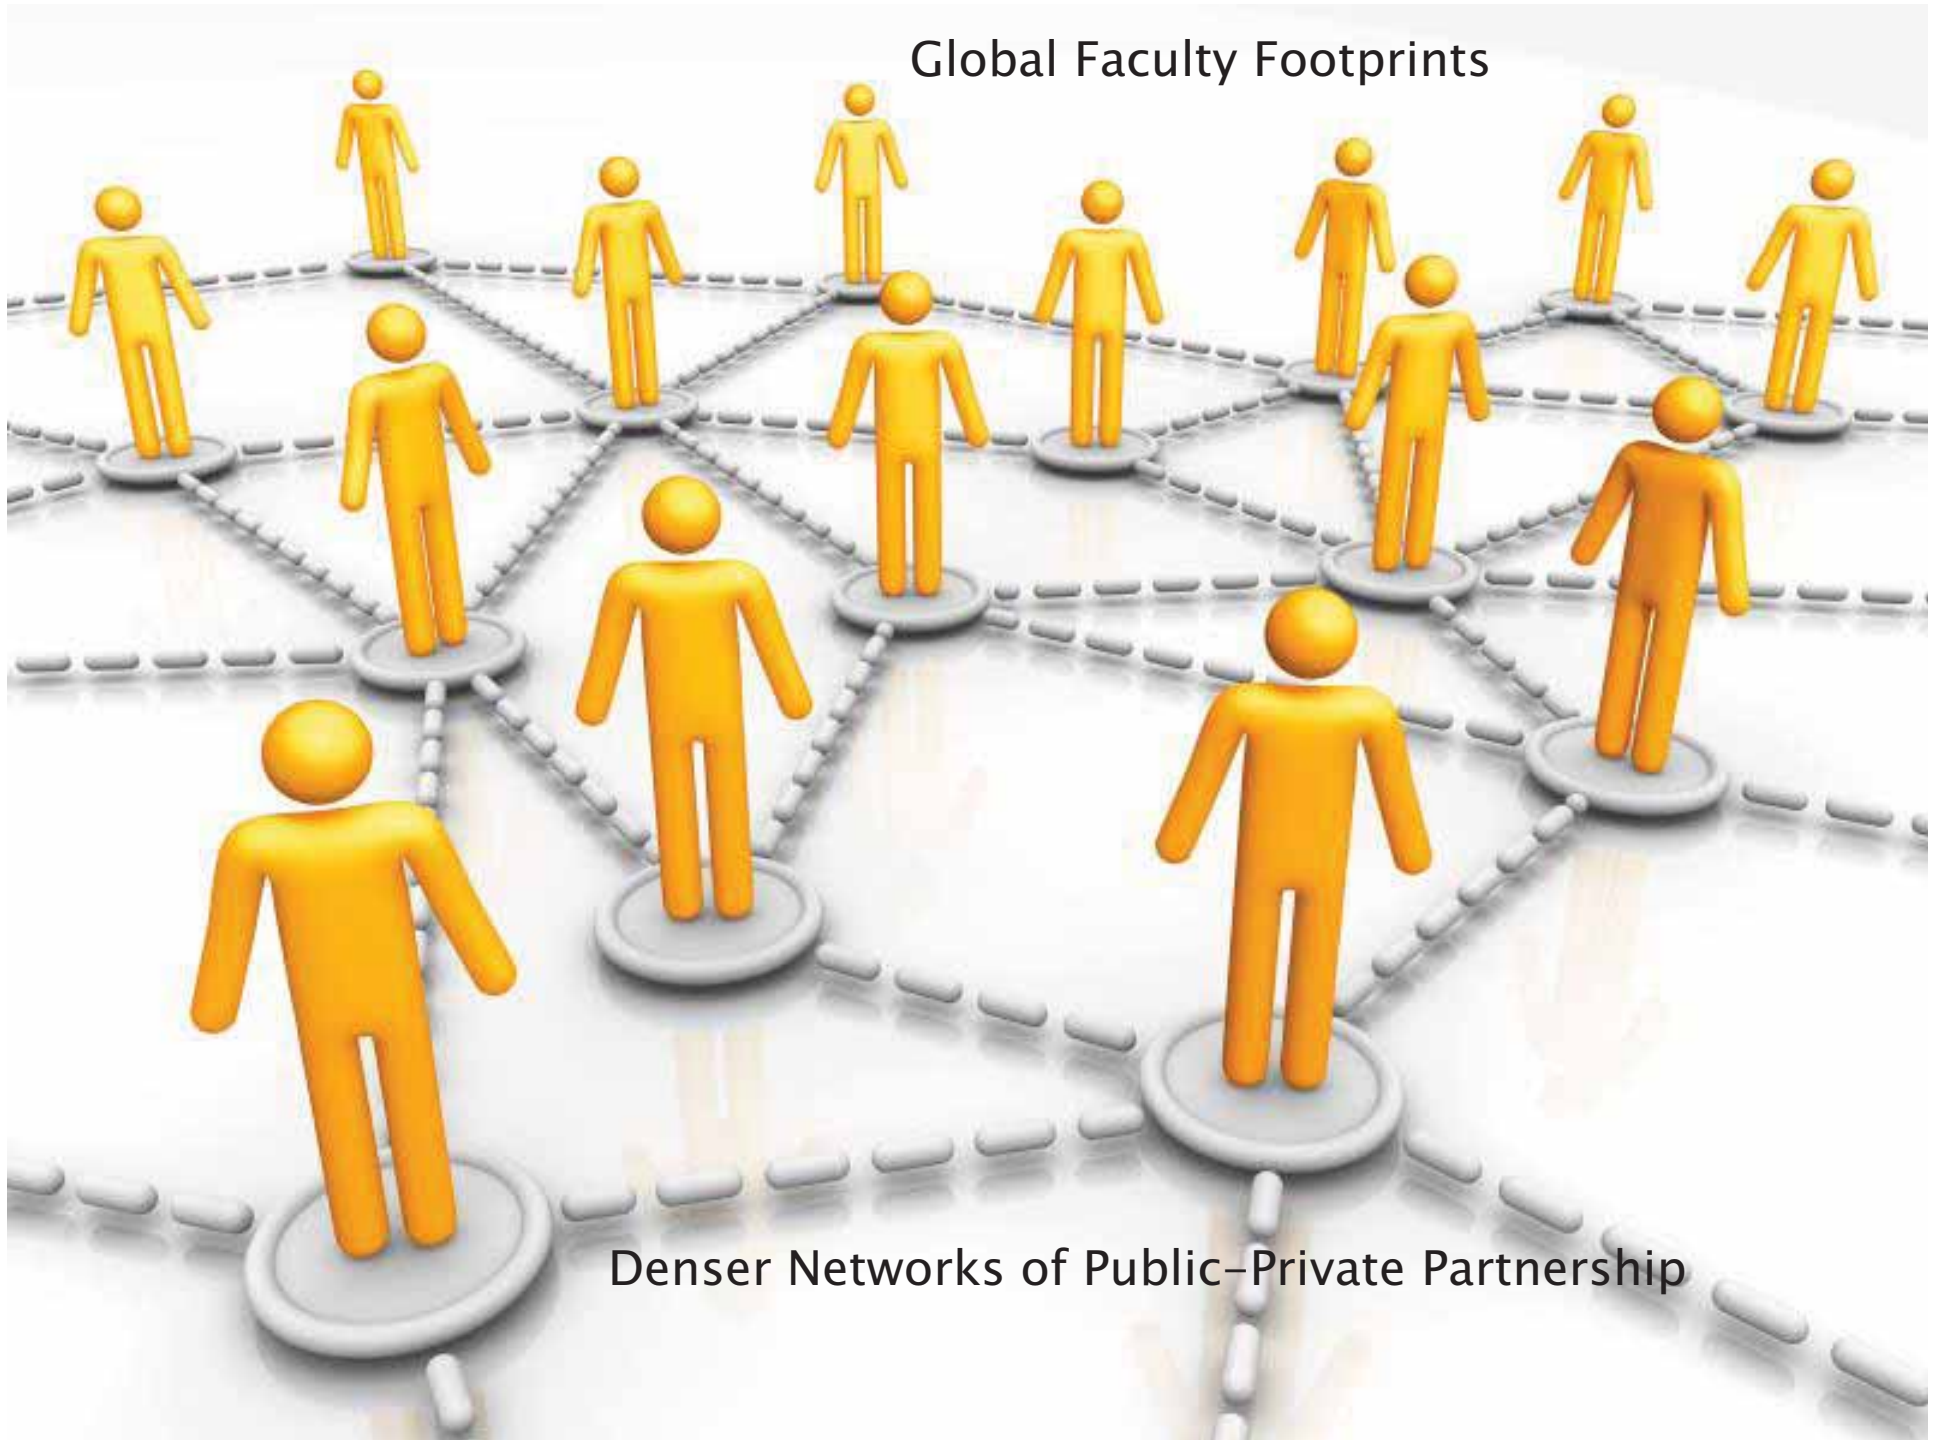

A 3D graphic of a hand holding several arrows pointing in different directions, symbolizing global initiatives and interdisciplinary centers. The hand is rendered in a metallic, greyish-blue color, and the arrows are in a bright orange-gold color. The background is a soft, out-of-focus white and light grey.

Interdisciplinary centers

Global Initiatives

Multiversities

Global Faculty Footprints

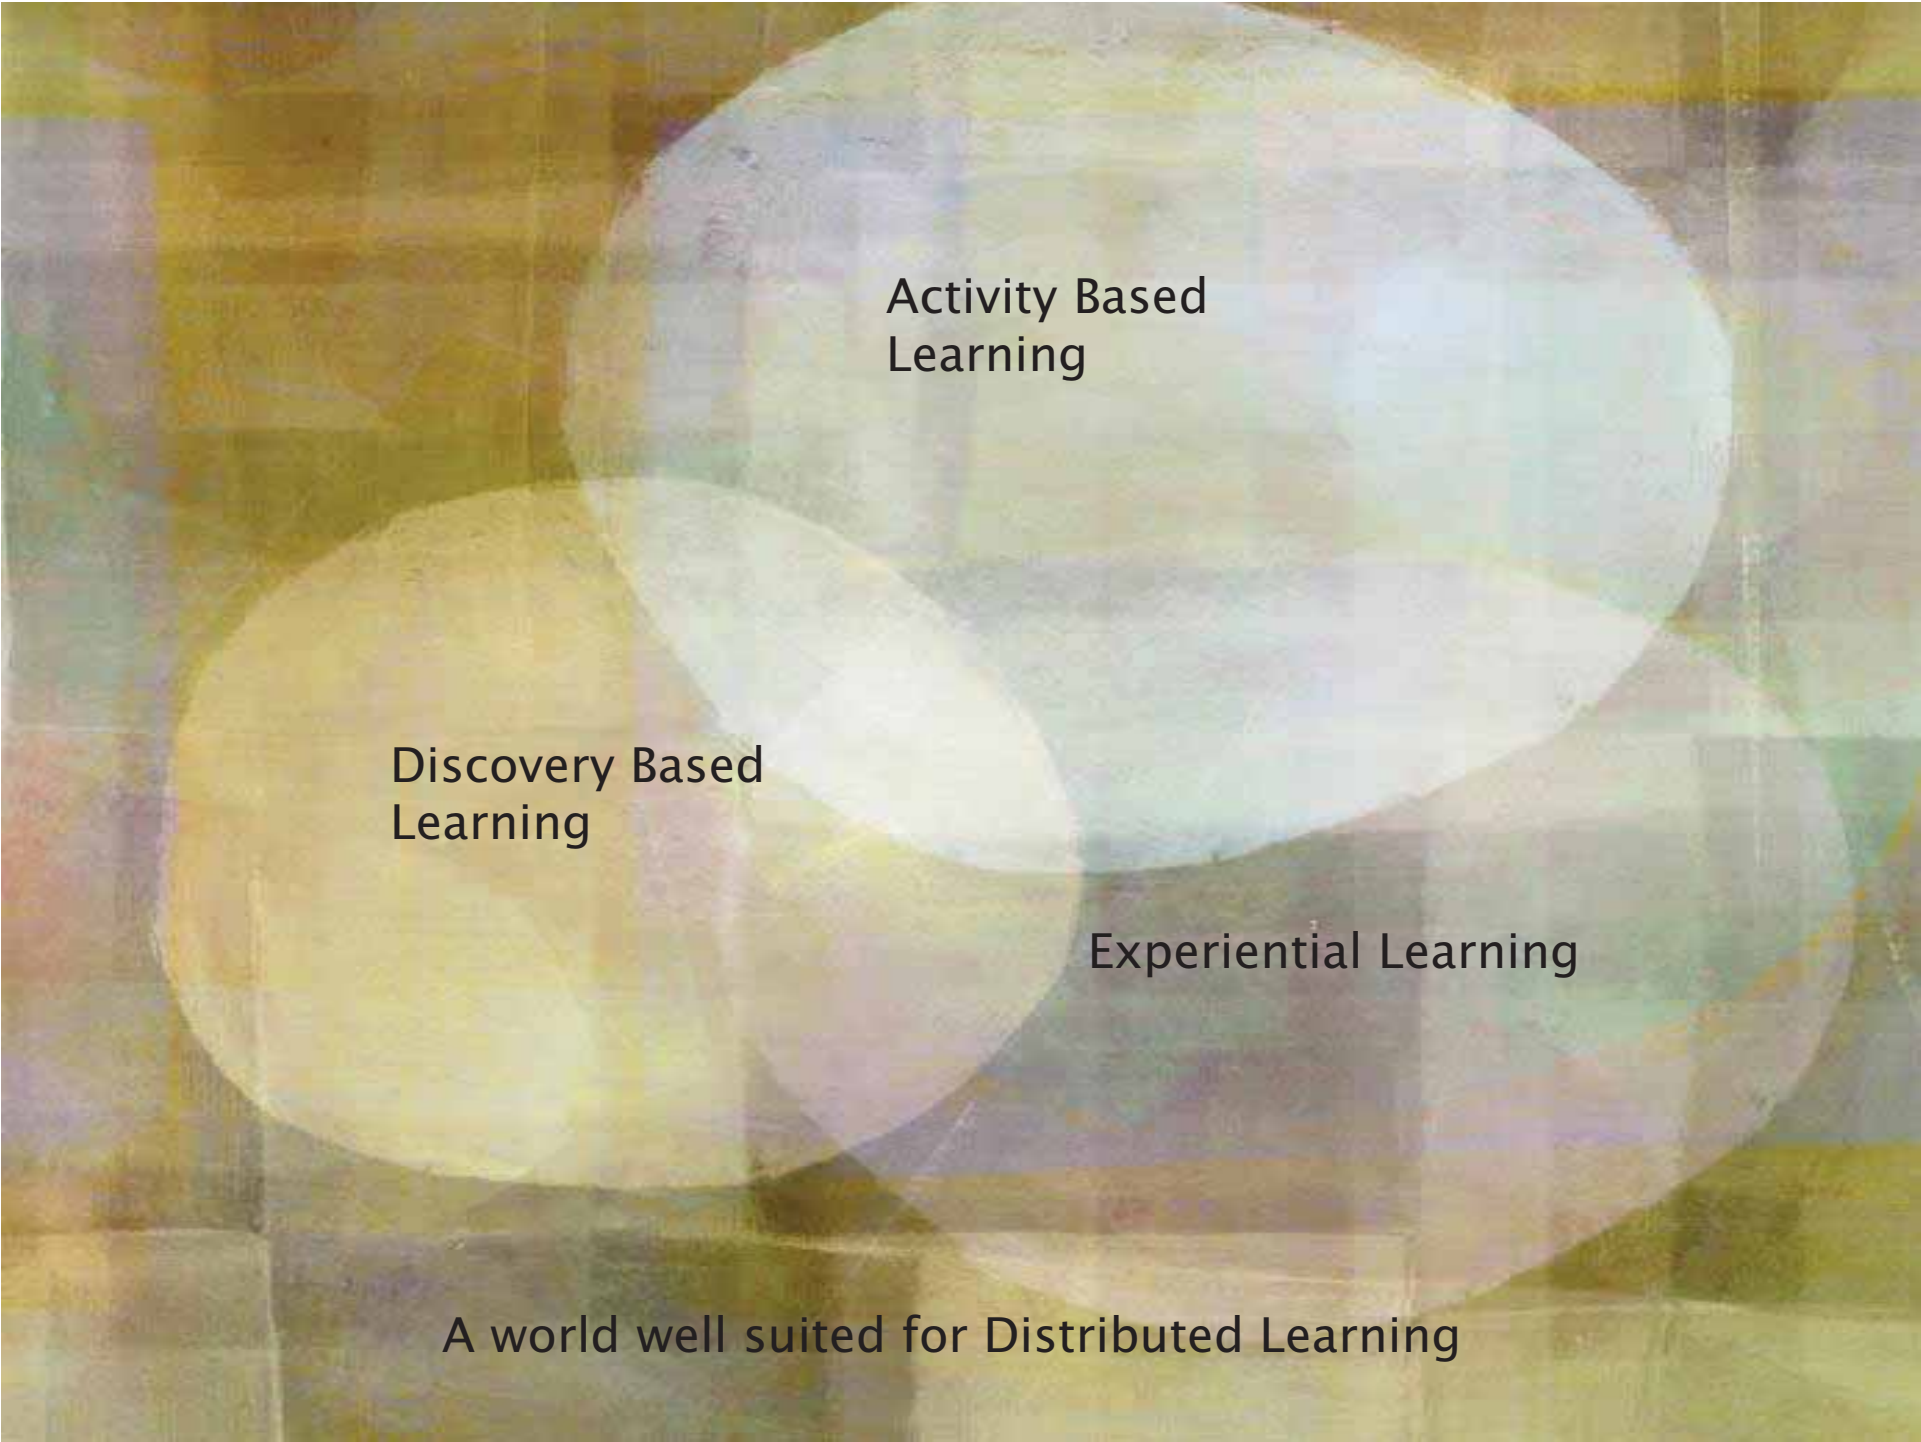

Denser Networks of Public-Private Partnership

Beyond
adjuncts....

...toward multifaceted careers

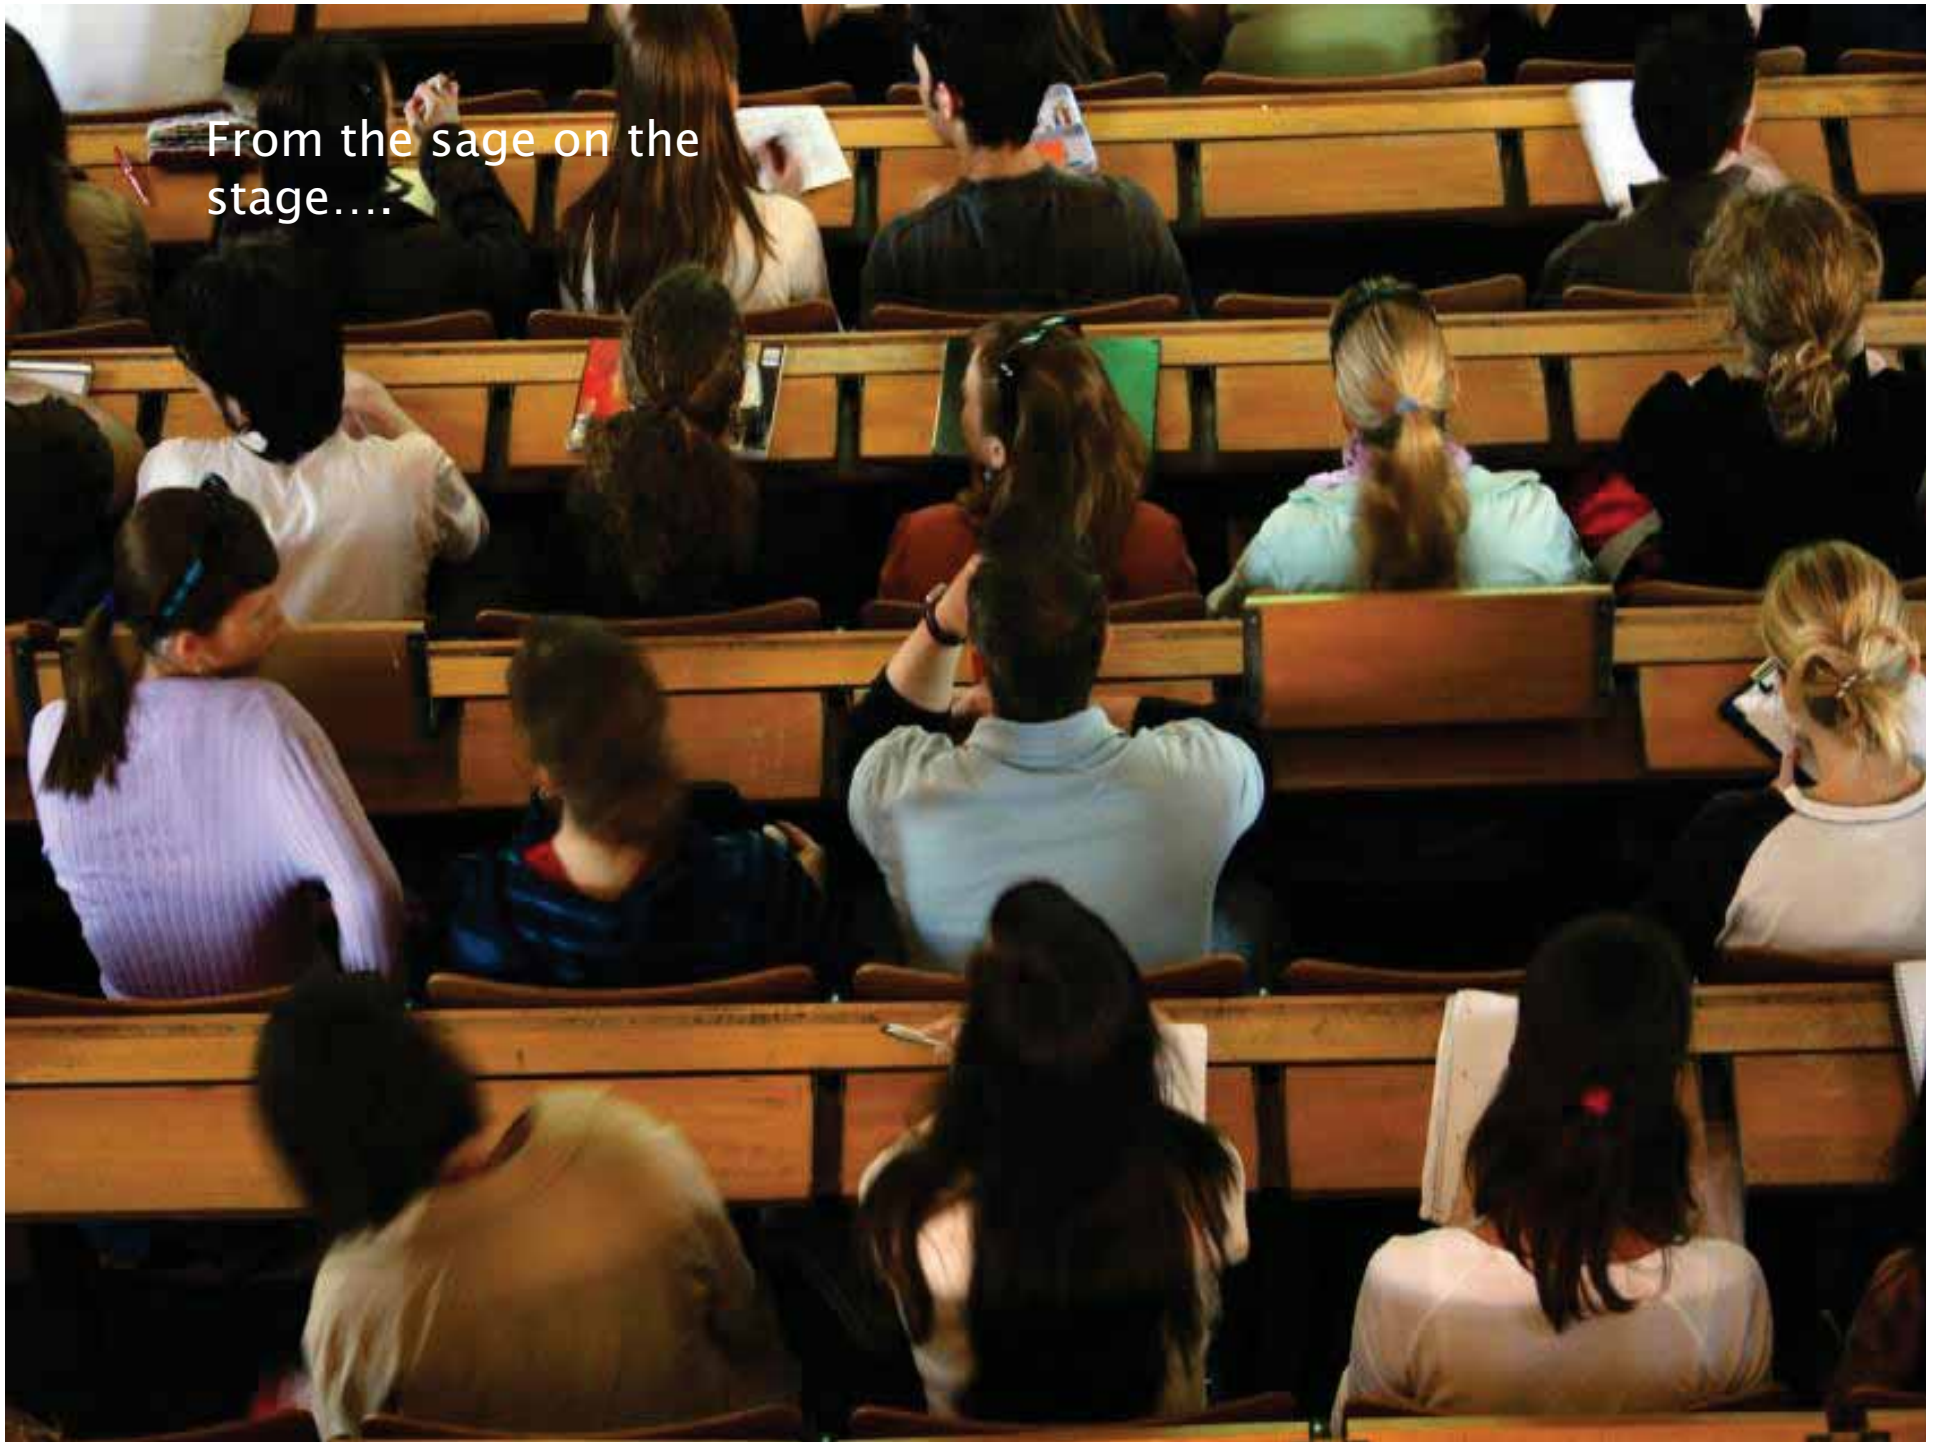

Activity Based
Learning

Discovery Based
Learning

Experiential Learning

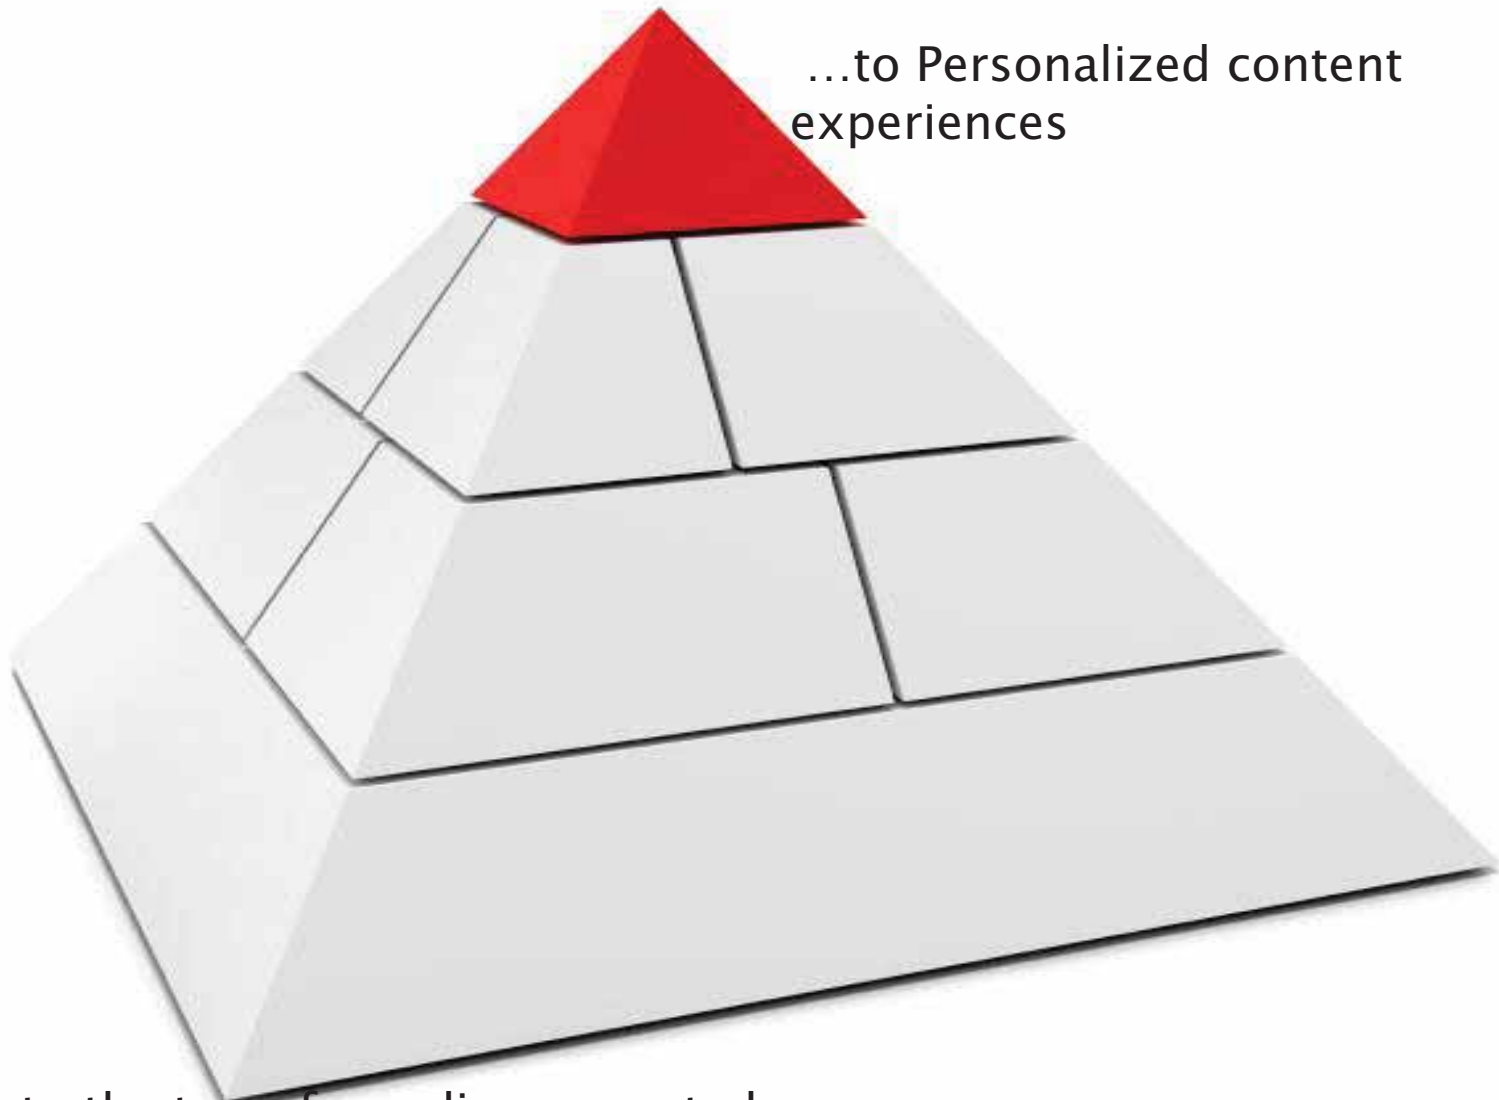

A world well suited for Distributed Learning

From the sage on the stage....

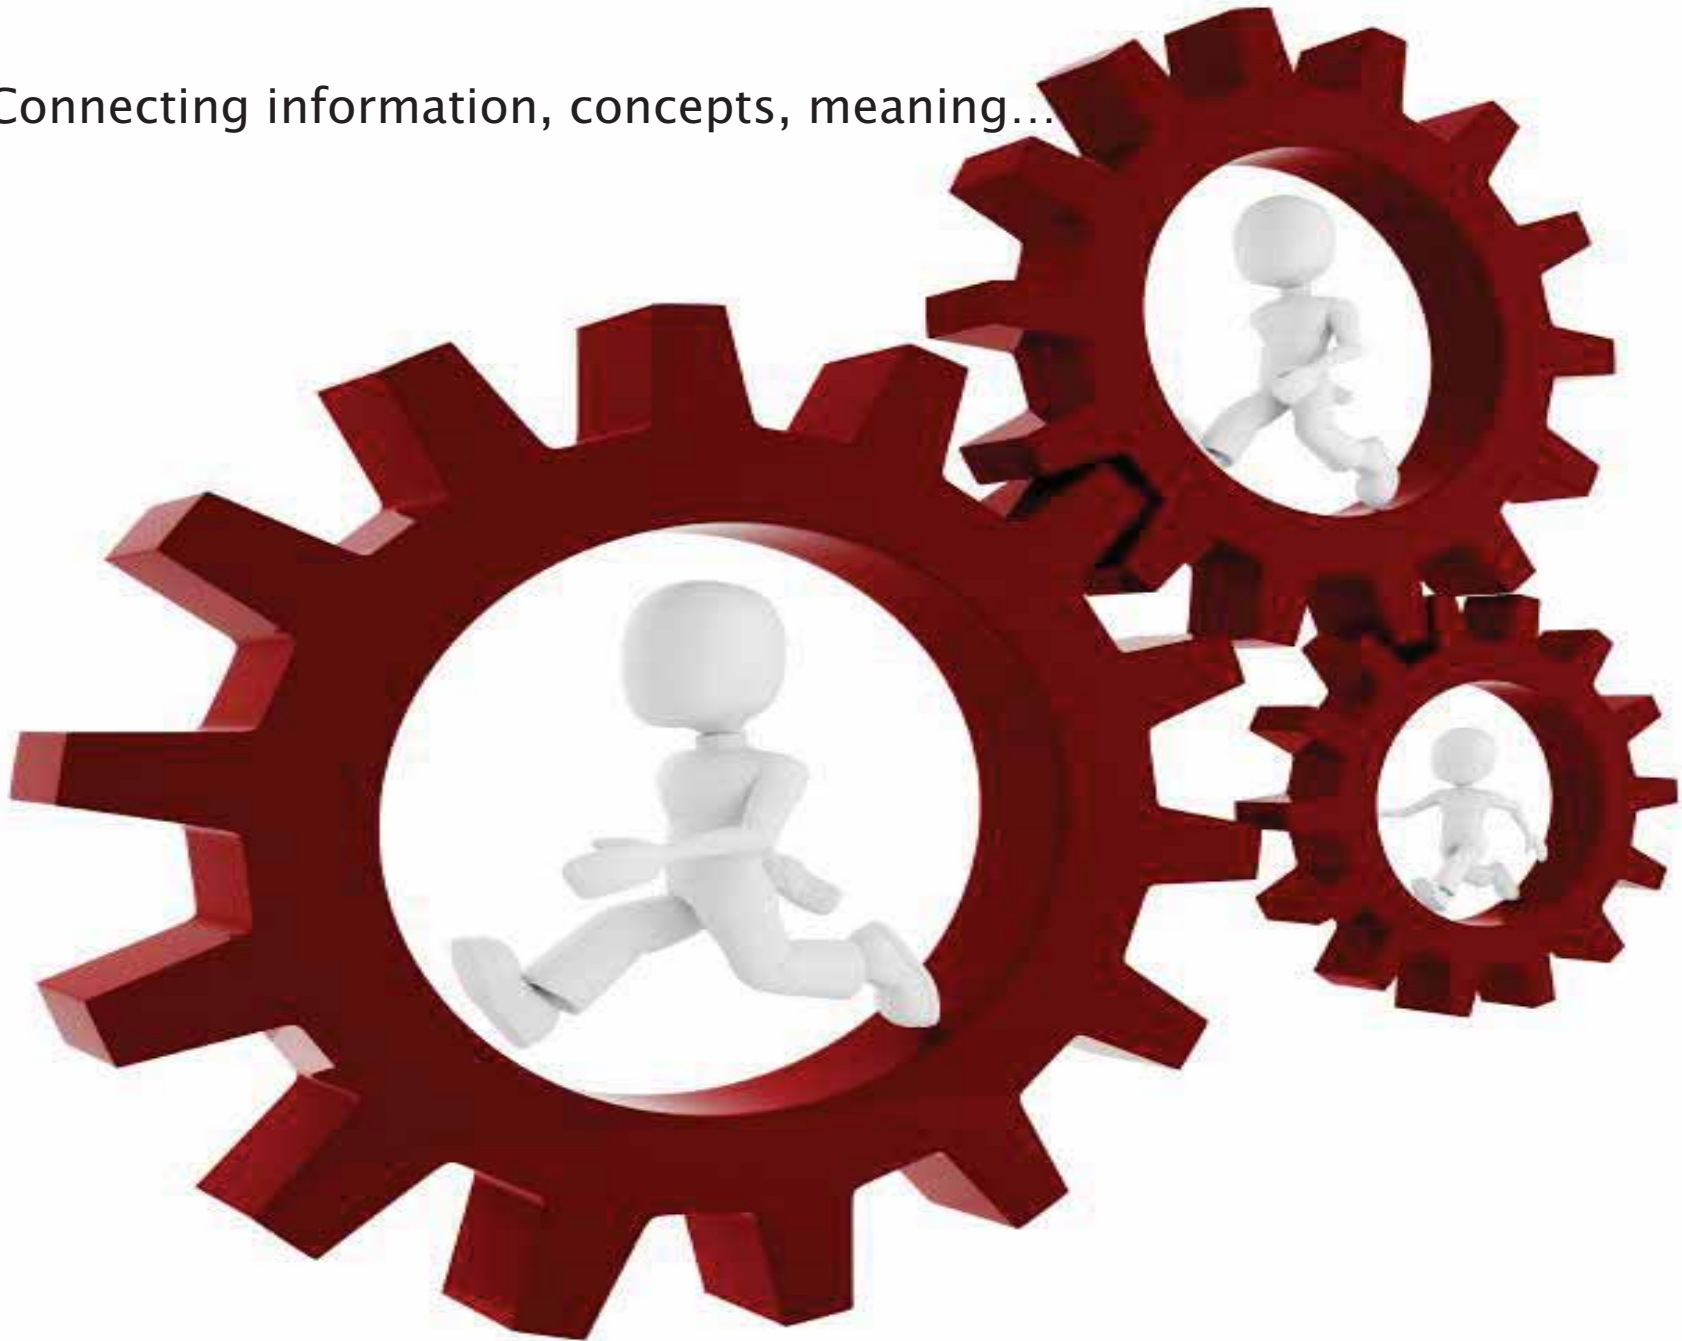

...to facilitation

...to Personalized content experiences

A race to the top...from disaggregated content

Connecting information, concepts, meaning...

...to turn the abstract into something useful

Dynamic, cumulative & creative
