

**Lisa Deuse** is a PhD student in the International Research Training Group “Brain-behavior relationship of emotion and social cognition in schizophrenia and autism” (IRTG 1328) at RWTH Aachen University and a stipend holder of the German Research Foundation. She received her Master’s Degree in Psychology from the University of Graz in 2013. During her Master’s studies, she received a Joint-Study Scholarship to study in the Behavioral Neuroscience Program at Western Washington University for 6 months, followed by a “KUWI” stipend awarded by the University of Graz which she used to conduct research for her thesis project at Western Washington University in 2012. Before entering the PhD program at RWTH Aachen, Lisa gained clinical work experience at the Autism Treatment Center in Graz. As a graduate student, she has worked as a research assistant in multiple neuroscience laboratories and has been trained in neuroimaging techniques including EEG and fMRI as well as animal research. She is currently visiting the Center for Autism Research at The Children’s Hospital of Philadelphia as part of the 6-months “mobility period” within the IRTG program.
