UW Graduate Students - Trends in Admissions, Enrollment, and Degrees

Notes: Autumn Quarter data as of the 10th day census. Figures include all three campuses (Seattle, Bothell, and Tacoma). Minority category includes African Americans, American Indians, Asian Americans, and Hawaiian/Pacific Islander, and Hispanic/Latinos. Selectivity = # offers / # applications. Yield = #new enrollment / # offered.

Comprehensive UW graduate education statistics may be found at:

Graduate School Computing and Information Resources

#### Washington State Residency Enrollment

The majority of UW graduate students, 59 percent, are Washington State residents. Nonresidents include international students (who comprise about 13.6 percent of total enrollment).

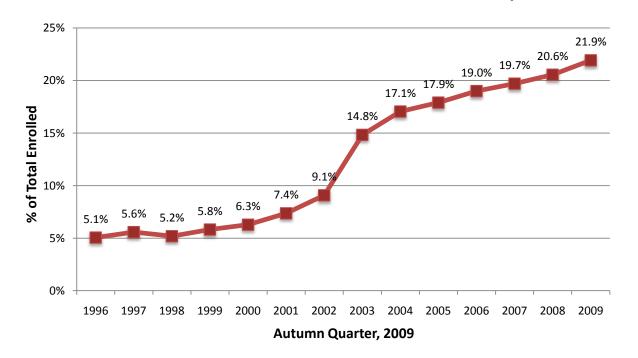

Over-all, UW Masters and doctoral enrollment has grown steadily in the past decade, rising 23.7 percent since autumn 2001. There were 9,369 graduate students at UW in autumn 2001, rising to 11,592 in autumn 2009.

#### Fee-Based Enrollment

In autumn 2009, 21.9 percent of students were in fee based programs (e.g., programs that are supported

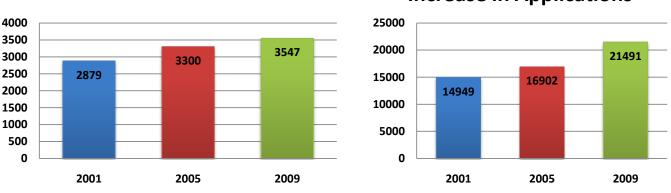

entirely by tuition and fees). The creation of new programs has driven this great increase; there are now 36 fee-based programs at UW. A later report will focus on fee-based programs in greater detail.

## Fee-Based Enrollment as a Percentage of Overall Graduate Enrollment Based on Headcounts for Seattle, Bothell and Tacoma Campuses

#### Increase in Graduate Student Applications and New Students

The UW has seen a steady increase in the number of graduate applications, with a 48 percent increase from 2001 to 2009. Growth has been steady, rising four percent from 2007 to 2008, and 6.4 percent from 2008 to 2009. The number of new graduate students at the three UW campuses continues to increase, rising 23 percent from 2001 to 2009.

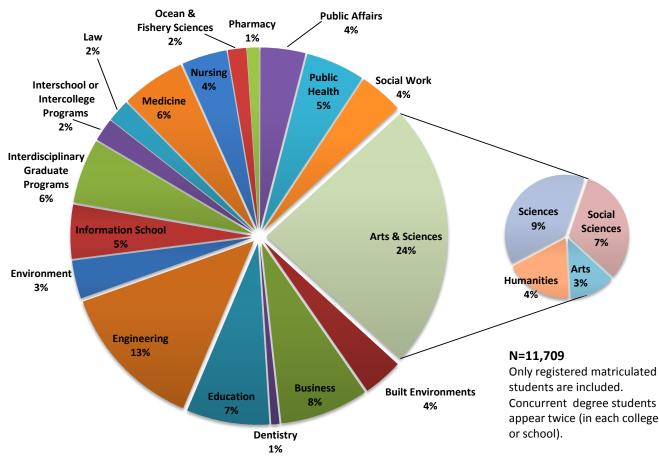

# New Graduate Students

# Increase in Applications

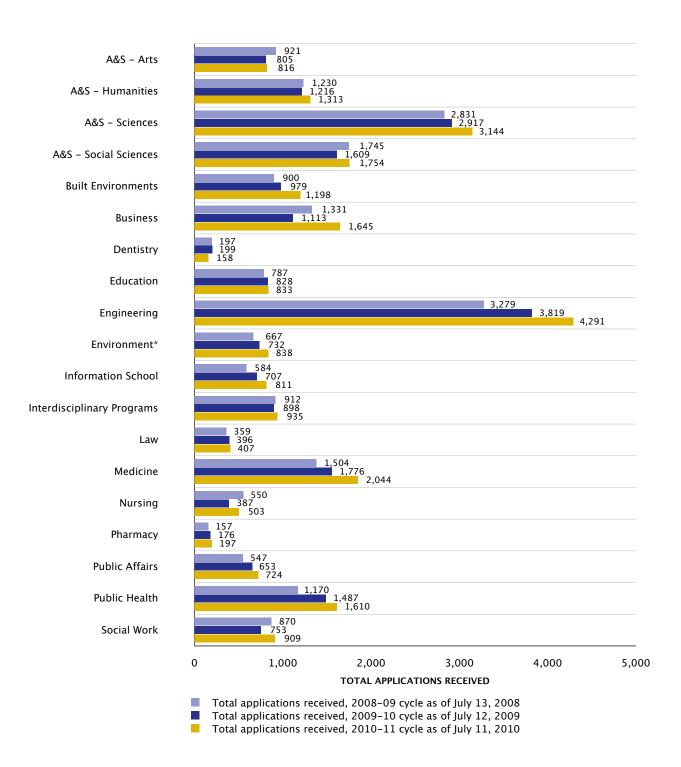

#### Graduate Student Enrollment Patterns

UW Seattle graduate students are distributed across 18 colleges and schools; Arts and Sciences (24 percent) and Engineering (13 percent) are the largest areas of study. The various divisions in Arts and Sciences are as large, or larger, than some colleges and schools.

## **Graduate Enrollment: UW Seattle 2009**

#### FIGURE 9 Trends in Applications, 2010

\*The College of the Environment has only existed since Autumn 2009. However, the six departments that comprise the college existed longer. The data for those departments have been combined and presented as the College of the Environment throughout this report. The College of the Environment is comprised of departments that were part of A&S – Sciences, Ocean & Fishery Sciences, and the College of Forest Resources.

Note: Applications have not yet closed for 2010.

For data on each college, school and program, refer to the appendix: http://www.grad.washington.edu/about/reports/report2-appendix.pdf.

## Percentage Point Change in Acceptance Rate by College, 2005-2009

See ranges presented in brackets for change over time. Percentage ranges are rounded to the nearest whole number.

A&S – Arts	-3.0			(24–21%) (39–27%)
